Creating The Perfect Look

Finding the perfect wedding dress can be a daunting task, but choosing a hairstyle that complements every fact of a particular look, life style, and personality can be just as challenging. From classic to dramatic over-the-top creations, every bride has a vision of what kind of bride she wants to be.

First things first. Schedule a consultation at least two or three months before the wedding. Bring some up-do pictures of ideas that you might enjoy, and a picture of the wedding dress. Talk about your likes and dislikes to develop a feel of your desired style.

Classic

Brides dream of their wedding day for years, so it's no surprise when they look for a more traditional style like a chignon or a French twist. Classic does not mean it has to be boring, you just have to add simple yet elegant accessories to create the perfect look. Take everything into consideration for example hair texture, face shape, body shape, body structure, the chosen accessories, and the dress.

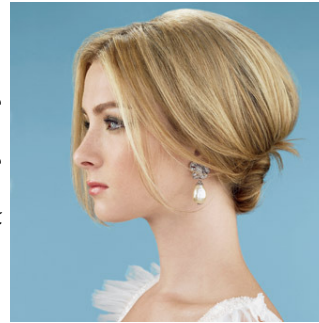

Beach

Sand, surf, and a tropical island breeze creates a couples wedding day paradise. For a beach wedding we suggest to keep the hair more natural. Leave it loose, whether straight or in soft waves. Add bright island flowers and sea shells to complete the final transformation.

Modern

The modern bride is opinionated and has a strong idea of what she wants her wedding day to be.

She shies away from tradition and opts for what suits her personality. Generally, modern brides usually decide not to wear a veil. More detailed styles can be worn like knots, twists, frayed ends. Accessories such as such as feathers and flowers will help emphasize the design.

Princess

Every bride wants to feel like a princess on her big day and curls help create that look. Think soft waves and loose curls cascading down the back of the dress. We make sure the back of the hair looks as good as the front.

Short Hair

Short-haired brides still have plenty of options when it comes to the wedding day style. Brides with waves to their hair can create finger waves which look clean and classic. Flowers can also add shape and dimension to short hair.

Mature

Mature brides want to look sophisticated and beautiful, so accentuating your best features is key. While creating illusions and different angles with the hairstyle, it will give your face a natural lift and help draw the eye upward.
